PREFACE.

IN placing this synopsis of my Collection of Australian Books, Maps, Pamphlets, etc., before the public I desire to impress those "Fellow Collectors" interested, that it has always been my great desire to collect material relating to our Colonial Possessions in the Southern Seas.

A world tour whilst accompanying my uncle, the late Mr. John Calvert in 1890 during which we visited Australia, and subsequently my own travels in which I toured America, Mexico, and Canada, previous to my final settlement in England, left me with a paramount interest in Australia, and the past history and records connected with the Southern Seas.

I have since done my utmost to give practical effect to the carrying out of my intention to make a representative Australian Collection of books, maps (especially those printed in the Colony), and other items of interest.

After many years of research and labour, I submit in the form of a catalogue the results of my efforts, and feel sure that those interested will share my present views and hopes. That a collection of such material may be of some national value in the years to come and that in the sphere of research it may create an advanced interest comparing favourably with the past and present enthusiasm for the study of the works on Americana is my earnest wish.

G. CALVERT.

London, June 1920.
